Solid Fuel Stove Procedures

(wood, pellets, coal, etc.)

When a new or used solid fuel stove is installed in the existing or new chimney or fireplace the following must be done prior to an inspection.

1. The stove **MUST** be an **APPROVED** tested stove UL or ASTM-E label attached to the stove
2. A certificate from a ***Chimney Cleaning Company*** stating they have cleaned and inspected the chimney, removed the damper if installed in a fireplace & the chimney is safe for use with the stove.
3. Install the stove to Manufactures specifications.
4. Installation book must be on site.
5. If wall protectors are used supply a drawing with details.
6. Must meet Building Code 780 CMR 3610, 108.3.5, 110, 111 Regulations R5, R6, Appendix K & NFPA 211
7. Smoke & Carbon Monoxide Alarms must be installed.
8. A permit must be applied for and received prior to an inspection.
9. Contact the Fire Department for the site inspection after receiving the permit.
