Site Visit Minutes – 13 March, 2023: Camp Harrington

Members Present: Ron Aspero, Joe McGrath

A visit was made at 12:30PM at the request of the Parks and Recreation Commission to discuss planned activities at Camp Harrington. The visit was attended by Eric Hoffses, Parks and Recreation Commissioner, Pamela Frechette, Parks and Recreation Coordinator, and a potential contractor.

Due to a timeline in place for filing by the Parks and Recreation Commission for a PARC grant, the Conservation Commission was requested to provide some guidance on WPA and Town By-Law filings that might be required for work to create access trails and restore the parking area at Camp Harrington.

Joe McGrath and Ron Aspero related to the Parks and Recreation staff and their contractor the current status of the site, based on previous filings by the Worcester Land Trust for the property. They were also advised as to what activities might be considered maintenance of the existing access paths on the property, and what activities would require a more extensive permitting process. The Parks and Recreation took that under advisement.

The site visit ended at 1:10PM.
