

## Rake up leaves to prevent flooding!

Any leaves that are left on the pavement can clog storm drains and flood your neighborhood.

## To prevent flooding (and reduce water pollution\*):

- Rake your leaves and grass clippings away from the road, sidewalk, driveway and wetlands.
- Bag the leaves and grass clippings for town pickup (or drop the bags off at your town dump) - or -
- Compost your leaves and grass clippings and use it as free fertilizer or -
- Mow your leaves with a mulching mower and let them stay them on the lawn as a natural fertilizer.
